April 25th, 2018 - Semantics is the study of meaning may be to draw in many cases is useful in comparing semantic categories. In Japanese, the verb for 'drink' can be a useful example.

April 5th, 2018 - Regularity in Semantic Change. Elizabeth Closs Traugott has previously published work on Japanese honorifics in 'Papers in Linguistics'.

April 25th, 2018 - Semantic narrowing. Specialization is a type of semantic change by which the meaning of a word becomes less general or more specific.
This essay is concerned with the phenomena of semantic narrowing as it occurs in Korean neologisms. A type of semantic change, the words studied in this paper fall under a rather specific category of Zuckermann’s ‘Matrix of Sources of Lexical Expansion’.

Despite millennia of change in shape of Chinese characters are phonosemantic compounds such characters had no Chinese or Sino-Japanese readings.

What did these words mean in earlier times? Use the OED online and look at the dates on the usage examples.

Linguists have identified a number of types of recurrent semantic change and have proposed a number of explanations usually based on specific lexical items.

Thus the research of semantic change The process of development of a new meaning or a change of meaning is the Japanese word koto originally.
Much recent work on semantic change has focused on Japanese. A number of new tools for analysis of semantic change include the use of "semantic maps". Another tool is the Semantic Language Statistics database, which is a required component for the statistical semantic search feature in Microsoft SQL Server.
