April 26th, 2020 - Making the Nation Safer: The Role of Science and Technology in Countering Terrorism

May 18th, 2020 - Keeping blood transfusions safe: FDA's multi-layered approach

May 1st, 2020 - Keeping the United States Blood Supply the World's Safest is the Ultimate Responsibility of the Nation's Blood Establishments that Collect and Process the Units of Whole Blood Donated by Nurses and Workflow Methods that are Effective for Nurses in Computerized Orders and Clinical Decision Support Within Ordering Systems.

Future research is needed to understand the impact of this technology on the role of nurses and workflow methods that are effective for nurses in computerized orders.

Across the sections in this chapter, several themes are apparent: first, nursing and nursing impacts are nearly absent in the current empirical studies of work on EHR orders and clinical decision support within ordering systems. Future research is needed to understand the impact of that technology on the role of nurses and workflow methods that are effective for nurses in a computerized orders system.
