Ornamentalism is a vividly evocative account of a vanished era a major reassessment of Britain and its imperial past and a trenchant and disturbing analysis of what it means to be a post imperial nation today.

Orientalism is a Western scholarly discipline of the 18th and 19th centuries that encompassed the study of the languages, literatures, religions, philosophies, histories, art, and laws of Asian societies especially ancient ones. Such scholarship also inspired broader intellectual and artistic circles in Europe and North America and so Orientalism may also denote the general enthusiasm for things.

To begin to do so I offer ornamentalism as a conceptual lens through which to attend to the afterlife of a racialized and aestheticized object that remains very much an object even as the human stakes remain chillingly high. At the most basic level ornamentalism with its almost homophonic echo of Orientalism names for me the critically conjoined presences of the Oriental the feminine.

Orientalism Book

June 2nd, 2020 - Orientalism is a 1978 book by Edward W. Said in which the author developed the idea of orientalism to define the West's historically patronizing representations of the East the societies and peoples who inhabit the places of Asia, North Africa, and the Middle East. Said argued that orientalism in the sense of the Western scholarship about the Eastern world is inextricably tied to the

Ornamentalism How the British Saw Their Empire David Cannadine

April 5th, 2020 - The British Empire has generally been seen as a racist empire while not wholly denying this, Cannadine here suggests a different dynamic. The British rulers were motivated not by race but by class. They loathed Indians or Africans no more or less than they loathed the majority of Englishmen dreaming of an empire based on defence and feudalism.
